## Synchronizer Trade In Policy

1. TSI Model 610032 synchronizer is eligible for trade in.
2. Trade-in allowance is given on a new TSI Model 610034 or 610035 synchronizer.
3. Synchronizer traded in must be part of a TSI PIV system – competitors systems excluded.
4. Synchronizer does not have to work
5. Allowance given on a one-for-one basis; allowance offered cannot be increased by trading in multiple units for a single new unit.
6. If trade-in synchronizer is received by TSI, a TSI branch office, TSI Representative, or TSI Distributor along with the purchase order for new synchronizer, customer may submit the order with prices already reduced by the trade-in allowance.
7. Purchase orders for new synchronizer submitted to TSI with prices already reduced by the trade-in allowance will remain on hold until the trade-in hardware is received by TSI or its representative.
8. If trade-in synchronizer is not received by TSI or its representative along with the purchase order, then the allowance is given as a credit after the trade-in hardware is received by TSI or its representative. In this case, please submit the purchase order for the full price.
9. Trade-in synchronizer should be shipped to TSI or its representative so it arrives within four months after order placement for new components to remain eligible for the trade-in allowance. Clearly mark your TSI Sales Order Number and "Trade-In Code TIP32SYNC-1208" on the package, and for shipments to TSI/Shoreview mark it to the attention of Ms. Diane Berg.
10. No retroactive trade-ins are allowed.
11. Trade in allowance is taken from the relevant List Price or Distributor Price.
12. Channel partner commission is based on the net sales price to the customer.
13. This program is a limited time offer.
14. Be sure to mention the promotion code TIP32SYNC-1208 on your purchase order.
